Date: September 17, 2007

HPSC
Agenda Item No. 3(C)

To: Honorable Chairman Bruno A. Barreiro
and Members, Board of County Commissioners

From: George M. Borges
County Manager

Subject: Resolution Ratifying FY2007 COPS Community Policing Development Grant Application

Recommendation

It is recommended that the Board ratify the attached resolution authorizing the County Manager's action in applying for, receiving, and expending grant funds in the amount of \$138,000 from the United States Department of Justice Community Oriented Policing Services (COPS) available under the FY2007 COPS Community Policing Development Program to support the Miami-Dade Police Department (MDPD). The grant covers a period from October 1, 2007 through March 31, 2009.

Scope

The grant will provide countywide services.

Fiscal Impact/Funding Source

This grant will provide \$138,000 in federal funds to implement the proposed project. The grant does not require any matching funds. The funding source is the U.S. Department of Justice, Community Oriented Policing Services.

Track Record/Monitor

The grant will be monitored by the Miami-Dade Police Department.

Background

The grant application was due on and submitted June 29, 2007. This grant will support the development of a link between the Community Oriented Policing philosophy with CompStat, the statistics based tool currently utilized by MDPD to track crime trends and develop enforcement initiatives. The initiative supports shifting enforcement from numbers based crime fighting efforts (reactive) to identifying underlying causes of crime by addressing community concerns (proactive). Included in the proposal is the use of web-based training technology allowing remote access to eligible personnel via computer at any location, as well as the mechanism for refresher and update training. The proposal also supports linking with the County's current performance management system, ActiveStrategy, to monitor, measure, and evaluate the initiative. These funds will support activities consistent with the MDPD goal of developing law enforcement services that are proactive and responsive to citizen needs.

The ORI number is assigned by the FBI and is your agency's unique identifier. The first two letters are your state abbreviation, the next three numbers are your county's code, and the final two numbers identify your jurisdiction within your county. If you do not currently have an ORI number, the COPS Office will assign one to your agency for the purpose of tracking your grant.

B. General Applicant Information

1. Cognizant Federal Agency: U. S. Department of Justice

Enter the legal applicant's Cognizant Federal Agency. A Cognizant Federal Agency, generally, is the federal agency from which your jurisdiction receives the most federal funding. Your Cognizant Federal Agency also may have been previously designated by the Office of Management and Budget.

C. Law Enforcement Agency Information

1. Is your agency contracting for law enforcement services?

☐ Yes ☒ No

If "yes," the Legal Name and address information listed on the SF-424 under section 8 (Applicant Information) should be for the jurisdiction that will be contracting to receive law enforcement services, and NOT the law enforcement agency that will actually provide those services. Also, be sure to enter the name and agency information of the contract law enforcement department under section 4, part A (law enforcement executive information) of this document. In all contracting arrangements, the jurisdiction that is applying for assistance is ultimately responsible for ensuring compliance with all grant requirements. For additional clarification on contracting guidelines, please see the program-specific section of the COPS Application Guide.

If you are a tribal law enforcement agency, instead of providing your own law enforcement services, does your tribe exclusively contract with a non-BIA local law enforcement agency for services?

If "yes," what is the actual population for which your department has primary law enforcement authority? [In other words, the 2000 Census population minus the incorporated towns and cities that have their own police departments.] 1.099 million

Do not list acres (1 mile = 640 acres).

SECTION 3: WAIVERS OF THE LOCAL MATCH

Please refer to the Application Guide for information on whether waivers of the local match, when applicable, are available under the grant program for which you are applying.

☒ Check here if not applicable

Are you requesting a waiver of the local match based upon severe fiscal distress?

☐ Yes ☐ No

If requesting a waiver, you will be required to attach a detailed waiver justification to your application. Please refer to the COPS Application Guide - "Waiver of the Local Match" section for information on what to include in your justification, as well as the program-specific portion of the Guide to review the local match requirements.

Note: Listing individuals without ultimate programmatic and financial authority for the grant could delay the review of your application, or remove your application from consideration.

A. Law Enforcement Executive/Program Official Information:

Enter the law enforcement executive's name and contact information (for law enforcement agencies) or program official's name and contact information (for non-law enforcement agencies). For law enforcement agencies, this is the highest-ranking official within your jurisdiction (e.g., Chief of Police, Sheriff, or equivalent). - If your agency has implemented an item and plans to enhance it under the grant, check both boxes.
- If your agency has not implemented an item and does not plan to implement it under the grant, leave both boxes unchecked.

SECTION 6: CONTINUATION OF PROJECT AFTER FEDERAL FUNDING ENDS

Retention for COPS Hiring Grants

This section is applicable to COPS applicants applying for sworn officer positions. In FY2007, this section is not applicable to any COPS applicants.

☒ Check here if not applying for a hiring grant

Hiring grantees are required to retain all additional officer positions awarded for at least one full local budget cycle following the expiration of COPS grant funding for each COPS-funded officer position. The additional officer positions should be added to your agency's law enforcement budget with state, local, or tribal funds for at least one full local budget cycle, over and above all other locally-funded officer positions (including other school resource officers) that would have existed regardless of the grant, from the time that the thirty-six (36) months of grant funding for each COPS position expires. Absorbing COPS-funded officers through attrition (rather than adding the extra positions to your budget with additional funding) does not meet the retention requirement. Please be aware that if your agency has additional sworn officer hiring grants that are active when one hiring grant expires, the officer positions that were awarded under the expired grant are added to your baseline of locally-funded officer positions and must be maintained throughout the implementation of all additional hiring grants.

Use the space below to explain how your agency currently plans to retain any additional officer positions awarded. Please be as specific as possible about the source(s) of retention funding (General Fund revenues, local ballot item, etc.) your agency plans to utilize. A missing or incomplete response could affect your ability to receive funding.

28

SECTION 7: NEED FOR FEDERAL ASSISTANCE

All applicants are required to provide a brief explanation of their agency's public safety needs and an explanation of their agency's inability to implement this project and/or address these public safety needs without federal assistance.

In the space below, please provide a brief explanation of your agency's inability to implement this project without federal assistance. [Please limit your response to a maximum of 250 words.]

Be sure to include a description of how you expect this grant to impact public safety and/or crime prevention in your community. Please refer to the COPS Application Guide for clarification on specific information to include in your summary. The Executive Summary may be used to keep Congress or other executive branch agencies informed on law enforcement strategies to deter crime in your community. [Please limit your response to a maximum of 400 words.]

☐ Check here if not applicable

SEE ATTACHED

In the Budget Narrative, you must attach a brief description of each item proposed for purchase, its purpose, and how the items relate to the overall project. Like items may be grouped together for ease of reporting. The structure of the Budget Narrative must mirror the structure of the Budget Detail Worksheet included in this application. In other words, each item reported in the Budget Narrative must fall under one of the following budget categories: Civilian/Other Personnel, Equipment/Technology, Other Costs, Supplies, Travel/Training, Contracts/Consultants, and Indirect Costs. For your information, a sample Budget Narrative and a sample Budget Detail Worksheet are included in the COPS Application Guide. Every item included on the Budget Detail Worksheet must be included in the Budget Narrative.

Note that allowable/unallowable costs will vary widely between different COPS grant programs and cooperative agreements. Please ensure that you refer to the program-specific portion of the COPS Application Guide - "Federal Funding: Allowable & Unallowable Costs" section for a complete list of the allowable and unallowable costs associated with the particular program for which you are applying. Including unallowable items on your application may delay the processing of your application and could ultimately result in the denial of your request.

SECTION 11: MEMORANDUM OF UNDERSTANDING

☒ Check here if not applicable

Please attach a Memorandum of Understanding (MOU) to your application that defines the roles and responsibilities of the individuals and partner(s) involved in your proposed project. Budget Detail Worksheets

Budget Detail Worksheets

Instructions for Completing the Budget Detail Worksheets:

The Budget Detail Worksheets are designed to allow all COPS grant and cooperative agreement applicants to use the same budget form to request funding. Allowable and unallowable costs vary widely and depend upon the type of COPS program. In addition, the maximum federal funds that can be requested and the federal/local share breakdown requirements also vary.

To determine the allowable/unallowable costs, the maximum amount of federal funds that can be requested, and the federal/local share requirements for the COPS program for which your agency is applying, please refer to the COPS Application Guide. To assist you, sample Budget Detail Worksheets and a Budget Narrative (if applicable) for each COPS program are included in the Application Guide.

Please complete each required page of the Budget Detail Worksheets (see the Application Guide for each program's requirements) and the Budget Summary. If you did not request anything under a particular budget category, please check the appropriate box indicating that no positions or items were requested. When you complete the Budget Detail Worksheets, transfer the total for each of the budget categories to the applicable category total field on the Budget Summary.

All calculations should be rounded to the nearest whole dollar. In addition, the Budget Summary should be completed with the federal/local share (if applicable) calculations regardless of whether the applicant is requesting a waiver of the local match.

Failure to complete all of the required Budget Detail Worksheet pages and the Budget Summary, and/or including unallowable items in your funding request, may delay the processing of your application, and could ultimately result in the denial of your application.

If you need assistance in completing this form, you may call the COPS Office Response Center at 800.421.6770.

A. SWORN OFFICER POSITIONS **No Sworn Officer Positions Requested ☒**

Instructions: COPS hiring grant programs pay for entry-level salaries and benefits of newly hired, additional sworn law enforcement officers for a period of thirty-six (36) months.

This worksheet will assist your agency in properly organizing your **maximum estimated** salary and benefit costs and providing the necessary financial details for review by the COPS Office. Please list the entry-level base salary and fringe benefits **rounded to the nearest whole dollar** for one sworn officer position within your agency. COPS hiring funds may also be used to pay for entry-level salaries and benefits of newly-hired, additional officers who will backfill the positions of locally-funded veteran officers that will be deployed into community policing specialty areas (e.g., School Resource Officers). **Do not include employee contributions.**

Complete part 1 if you are requesting funds for full-time officer positions; part 2 if you are requesting part-time officer positions; and both parts 1 and 2 if you are requesting full and part-time officer positions.

Officer Positions Requested:

Full-time: _____ Part-time: _____

Enter the number of new, entry-level full-time and/or part-time officer positions that are being requested. Do not include any officers already funded (or for which funding has been requested) under any other COPS grants or any positions otherwise funded with state, local, tribal, or BIA funds. Your request should be consistent with your agency's law enforcement needs. Do not request more positions than your agency can support and retain.

Please complete if your agency is requesting part-time officers:

Part-Time Hours:

What is the average number of hours per week that your part-time COPS officer will work? _____

How many hours per week is considered full-time employment? _____

What is the average number of hours per year that your part-time COPS officer will work? _____

What is the hourly rate for the part-time COPS officer? _____

To calculate the base salary amount for part-time officers, multiply the hourly rate by the average number of hours per year that the part-time COPS-funded officer will work. You will enter this base salary on page 4.

Note: There is a funding cap for part-time officers in proportion to the number of hours worked and the maximum federal funding allowed under a particular COPS hiring program. For example, COPS in Schools has a maximum federal share of \$125,000. The part-time federal funding cap would be calculated as follows: 20 hours/40 hour week = .5 full-time equivalent; part-time federal share cap = .5 X \$125,000 (maximum allowed) = \$62,500. The Tribal Resources Grant Program has a maximum federal share of \$75,000. The part-time federal funding cap would be calculated as follows: 20 hours/40 hour week = .5 full-time equivalent; part-time federal share cap = .5 x \$75,000 (maximum allowed) = \$37,500.

Instructions: Please indicate the law enforcement agency's cost for each of the following categories. Please do not include employee contribution costs.

The percentage of one officer's salary and benefits paid with federal funds must be less in Year 2 than in Year 1, and less in Year 3 than in Year 2. In contrast, the percentage of total officer's salaries and benefits paid with local funds (if applicable) must be more in Year 2 than in Year 1, and more in Year 3 than in Year 2. Non-expendable equipment is tangible property (e.g., technology) having a useful life of more than one year and an acquisition cost of \$5,000 or more per unit. Expendable items should be included either in the "SUPPLIES" or "OTHER" categories. Applicants should analyze the cost benefits of purchasing versus leasing equipment, especially for high-price items and those subject to rapid technical advances. Rented or leased equipment costs should be listed in the "CONTRACTS / CONSULTANTS" category.

For agencies purchasing items related to enhanced communications systems, the COPS Office expects and encourages that, wherever feasible, such voice or data communications equipment should be incorporated into an intra- or interjurisdictional strategy for communications interoperability among federal, state, and local law enforcement agencies.

Miami-Dade Police Department
Community Oriented Policing and Problem-Solving Initiative

Executive Summary

The Miami-Dade Police Department (MDPD) has provided Community Oriented Policing (COP) training to sworn personnel and academy trainees since 1994. This grant will provide MDPD with the opportunity to merge the COP philosophy with CompStat, the statistics-based tool currently utilized to track crime trends and develop enforcement initiatives. This will be accomplished in three phases.

Phase 1 is developing a comprehensive training curriculum showing how principles of COP can be adapted to the CompStat process, including streamlining the traditionally lengthy SARA analysis into concise 2-page reports. The training will focus on COP principles, and the combined use of the modified SARA model and MDPD's Daily Intelligence Driven Analysis in the reporting of crime trends. This training, targeting command-level employees (lieutenants and higher), will be presented in a series of seminars that can be simultaneously broadcast to remote departmental entities, and even to local municipalities, via web-based technologies. This phase accomplishes two things: (1) shifting enforcement initiatives from numbers-based crime fighting efforts (reactive) to identifying underlying causes of crime by addressing community concerns (proactive); and (2) ensuring that managers understand their individual roles in the department-wide implementation of COP beyond traditional road patrol.

Phase 2 is creating a direct link between CompStat/COP and MDPD's strategic plan. This will be accomplished by incorporating CompStat/COP into MDPD's ActiveStrategy Enterprise Balanced

Scorecard, the application utilized by MDPD to monitor, measure, and evaluate departmental goals and initiatives. By incorporating COP and the SARA model into CompStat, and subsequently incorporating CompStat/COP into ActiveStrategy, departmental entities must actively use COP concepts and the SARA model in the performance of daily tasks in order to accomplish established goals and objectives. Successful implementation of this phase will require data security measures in order to safeguard against the inappropriate distribution of sensitive or confidential information.

Phase 3 is making COP training available to employees via on-line learning segments, with periodic refreshers and updates. This ensures long-term sustainability of the initiative, and reinforces COP principles and the SARA model in all aspects of departmental decision-making.

The successful implementation of this COP initiative within MDPD will create a proactive approach to law enforcement that is more responsive to the needs of the citizens of Miami-Dade County. Improved citizen/police relationships can lead to collaborative crime-fighting efforts and innovative community-centered enforcement initiatives.

Miami-Dade Police Department

Community Oriented Policing and Problem-Solving Initiative

Program Narrative

A. Problem Identification, Justification, and Use of Federal Funds:

The Miami-Dade Police Department (MDPD) first introduced the Community Oriented Policing (COP) concept to department personnel in 1994. Since then, basic COP training has been presented to all sworn personnel, and COP concepts are also delivered to police academy trainees as part of their Basic Law Enforcement Training. While it is easy to recognize the value in COP principles, the challenge for our department has been in fully integrating COP principles and the use of the SARA problem-solving model into MDPD's daily operations department-wide, particularly at management levels. There are several reasons for this. In its traditional form, utilizing the SARA model can be time consuming and tedious. MDPD simply does not have the manpower needed to ideally implement COP in routine road patrol. Given the geographical size of Miami-Dade County and the population it serves, our officers typically have little or no time between calls for service and, as a result, taking the time to interact with the community and create relationships and information networks is very limited. In efforts to remedy this and reach out to the community, our department has established Quadrant Patrols. These are squads assigned to districts that roam the community and attempt to establish these much needed community relations. This is a step in the right direction; however, it still falls short of the COP ideal.

Another obstacle to better implementation of COP in our department is the use of CompStat for the reporting of criminal activity and the subsequent development of enforcement strategies. Because

CompStat principles are predominantly statistics-based, they are often at odds with COP principles. CompStat forces the department to look at numbers on a monthly basis and holds entity commanders accountable for fluctuations in crime trends within their areas of responsibility. While statistics and accountability are powerful tools that can aid law enforcement, they focus only crimes which have already happened and therefore allow only for predominantly reactive enforcement efforts. For example, areas that reported increases in criminal activity for the prior month are targeted in order to report a decrease in that same area for the following month. These efforts have been effective for short-term issues, but do not take into account root causes of crime in an effort to develop strategies to deter or prevent criminal activity for the long-term. CompStat based enforcement initiatives also do not take into account community interests or areas of concern. While addressing the crime trends reported in CompStat is a vital patrol function, it is also imperative that law enforcement be aware of the needs of the citizens, and that efforts are directed to address their concerns.

A recent article published by the National Institute of Justice's Symposium on Operations Research and the Criminal Justice System offers a Challenge Statement by Hubert Williams, President of the Police Foundation. In the article, Williams stresses that there is a significant discrepancy between CompStat police management and COP principles, most notable in the fact that CompStat places supreme importance on the reduction of crime and often overlooks community needs and input in the process. The challenge posed by Williams to the Operations Research community was how to help law enforcement agencies in the balancing of CompStat methods and COP methods in policing.

The MDPD Community Oriented Policing and Problem-Solving Initiative aims to answer this challenge. It will provide an internal structure that blends traditional CompStat reporting and COP techniques, including the standardized use of a modified SARA model in the reporting of statistics.

This project will also integrate COP into our departmental strategic planning process by utilizing the SARA model to substantiate departmental goals and objectives, thereby institutionalizing COP principles department-wide. This is a large-scale process that will greatly benefit both the department and the community it serves. Unfortunately, in light of recent Florida legislature and corresponding governmental budget cuts, projects such as this are highly unlikely to receive local funding from MDPD's operating budget, thereby necessitating federal assistance in order to implement these valuable organizational changes.

B. Narrative of Project (including goals and objectives):

Miami-Dade Police Department intends to utilize this grant in order to fully institutionalize COP at all levels within our department. Overall success of this project is dependent on the achievement of three major objectives:

(1) The first objective is to develop a comprehensive training curriculum showing how principles of COP can be adapted to the CompStat process, including streamlining the traditionally lengthy SARA model analysis into concise 2-page reports, a much more concise format that is both practical in application and feasible for department-wide use analysis. The training will focus on COP principles, and the combined use of the modified SARA model and MDPD's Daily Intelligence Driven Analysis in the reporting of crime trends. By successfully achieving this objective, MDPD will also accomplish two important things. First, enforcement initiatives can be shifted from numbers-based crime fighting efforts that are mostly reactive in nature to identifying underlying causes of crime by addressing community concerns, thereby embracing a more proactive approach to crime deterrence and prevention. Additionally, this training will ensure that managers understand their individual roles in the department-wide implementation of COP, even beyond traditional road patrol.

(2) The second objective is to create a direct link between CompStat/COP and MDPD's strategic plan. By establishing this direct connection, departmental entities will be required to actively use COP concepts and the SARA model in the performance of daily tasks in order to accomplish established goals and objectives. Successful implementation of this phase will require the careful implementation data security measures in order to safeguard against the inappropriate distribution of sensitive or confidential information.

(3) The third objective is to make all COP training available to employees via on-line learning segments, with periodic refreshers and updates. This ensures long-term sustainability of the initiative, and will continually reinforce the use COP principles and the SARA problem-solving model in all aspects of departmental decision-making.

C. Management and Implementation Plan (including strategy to be used to achieve goals and objectives).

The MDPD Community Oriented Policing and Problem-Solving Initiative will be implemented in three phases that correspond to the three primary objectives outlined in the project narrative section.

Phase 1 involves researching and developing the training curriculum, including the methodology associated with the modified SARA model and its integration into the CompStat reporting process. This phase also includes the subsequent presentation of this training to management and command level personnel (rank of lieutenant and higher). The first six months of the grant period will be dedicated to research, development, and course preparation. In addition, a brief video segment will be produced introducing the concept. This video will be distributed on DVD's to departmental entities,

and will also be made available for viewing online. Training conferences for department managers and executives will commence in April 2008 and will continue through to September 2008. No less than 10 training sessions, and two make-up sessions, will be required to train all designated personnel (approximately 300). Several of these training conferences will also be web-cast to remote departmental entities and, if feasible, to other municipal police departments within Miami-Dade County. The web-cast videos of these training sessions will be utilized to make this training available as on-line training modules that can also be made available to all department personnel and to other local law enforcement agencies (exclusive of any department-specific or sensitive information).

Phase 2 involves creating a direct link between this CompStat/COP blend and MDPD's strategic plan. This will be accomplished by incorporating the CompStat/COP concept into MDPD's ActiveStrategy Enterprise Balanced Scorecard, the application utilized by MDPD to monitor, measure, and evaluate departmental goals and initiatives. By incorporating COP principles and the use of the SARA problem-solving model into the CompStat process, and subsequently incorporating the CompStat/COP blend into ActiveStrategy, departmental entities must actively use COP concepts and the SARA model in the performance of daily tasks in order to accomplish established goals and objectives. This integration requires the technical augmentation of the Department's existing ActiveStrategy Enterprise Balanced Scorecard application in order to load CompStat data into the application, and also to link modified SARA reports with their respective goals and/or objectives. This phase will effectively implement the standardized use of COP and the SARA model beyond road patrol and into every departmental entity. Successful implementation of this phase will require data security measures in order to safeguard against the inappropriate distribution of sensitive or confidential information. This will be accomplished during the augmentation process of the ActiveStrategy Enterprise Balanced Scorecard application. This application enhancement process will also necessitate further training of

management and executive staff, as well as employees directly involved with the data entry and management aspects of this program. This training will be provided by the vendor as part of the transition enhancement process.

Phase 3 is making introductory COP training and brief refreshers available as online training modules for department personnel at all levels. To ensure the continued success of this initiative, online training refreshers and updates will continue to be developed beyond the term of the grant. This provides for long-term sustainability of the initiative, and reinforces COP principles and the SARA model in all aspects of departmental decision-making. Once established, these ongoing training efforts will require minimal resources for program continuance. Computer-based COP training will be incorporated into the Training Bureau's cadre of ongoing training programs, and will be funded from the Training Bureau's regular operations budget in future fiscal years.

Staffing will primarily consist of a Police Training Coordinator, a sergeant, who is certified to provide COP training to departmental personnel, and also to train other COP trainers. This Police Training Coordinator will oversee the implementation of the project. He will be responsible for researching and development the training program, including the creation and preparation of all training manuals and materials that are to be issued to the participants, as well as any audio-visual presentations. This training coordinator will also be responsible for scheduling of training, logistics, coordination of instructors, preparation of course files and documentation, and other related tasks. Integral to the innovation and ultimate success of the project is coordination with our department's award-winning Computer Based Training (CBT) and Video Services (VSU) units for their collaborative efforts and expertise in the preparation of the introductory video, and in the coordination of the simultaneous web-

casting of training conferences. Both the CBT and VSU services will also be needed for the subsequent preparation of continuing online training segments.

D. Evaluation Plan/Effectiveness of Program

The success of this initiative truly lies in the department-wide shift from reactive, numbers-driven policing strategies to a more proactive, preventive approach in the delivery of police services. Overall program effectiveness rests in the effectiveness of each objective and sub-objectives. The matrix below details the performance measure corresponding to each of the listed objectives:

Performance Measure Matrix

Objective	Performance Measure	Method to Measure Success
Training MDPD Managers and Executives	Number of managers and executives trained in the use of COP and the SARA model as part of the CompStat process	Quantity
Increasing Enforcement Efforts that Address Community Concerns	The number of enforcement initiatives that are directly linked to community concerns	Quantity
Increasing Crime Prevention Initiatives	The number of initiatives that are directly aimed at deterring or preventing criminal activity by identifying and addressing root causes of the criminal activity	Quantity
Linking CompStat/COP with the Department's Strategic Plan	Developing a standardized method for utilizing COP concepts and the SARA model in the development of departmental strategy and direction.	Program Analysis
Institutionalizing the Use of COP Strategies Department-wide	The number of goals, objectives, and initiatives loaded into the ActiveStrategy Scorecards that are substantiated by a SARA report	Quantity

Proactive Approach to Law Enforcement and Problem-Solving	personnel at all levels about the initiative and its effectiveness	
---	--	--

The Miami-Dade Police Department will collect comprehensive data relating to this initiative, including training and training evaluations for both instructor-led training sessions and online training modules. This data will be recorded in the Training Bureau's training databases, and can easily be compiled into reports for program evaluation purposes. In addition, the individual entities will collect data and periodically report on the development of enhanced enforcement, deterrent, and prevention initiatives that address community concerns as substantiated by a SARA analysis. By virtue of the integration of the CompStat/COP concepts into the ActiveStrategy Enterprise Balanced Scorecard application, many of these initiatives will already be identified and recorded in within the application, thereby facilitating the department-wide compilation of data. Program review and analysis will provide guidance and measures by identifying program successes, as well as areas than need modification and improvement. Feedback will also be utilized to assist MDPD in evaluating its success in changing departmental enforcement strategies from largely reactive to a more proactive approach to delivering police services.

It is MDPD's vision to answer Hubert Williams' challenge to balance CompStat with community policing strategies. This initiative can help bridge the gap between these two distinct police management styles and ultimately make the organizational shift from a reactive, statistics-based policing strategy to a proactive, community-based policing strategy. Each component of this initiative allows the department to incrementally increase its capacity to institutionalize COP by standardizing the use of COP strategies and the SARA problem-solving model across all departmental entities, but with a particular emphasis on crime prevention and enforcement efforts. Successful implementation of this COP initiative within MDPD will foster a proactive approach to law enforcement that is more

responsive to the needs of the citizens of Miami-Dade County and that can foster improved citizen/police relationships. These relationships can, in turn, lead to a wide variety of collaborative crime-fighting and prevention efforts and innovative community-centered enforcement initiatives. These changes can positively impact the community and ultimately enhance the quality of life of residents and visitors of Miami-Dade County. Successful implementation of this initiative can also serve as a model for other law enforcement agencies across the country. The concepts and methods developed can be adapted to meet the needs of individual agencies and communities nationwide.

Section 7: Need for Federal Assistance

The Miami-Dade Police Department (MDPD), like all government entities throughout the state of Florida, will be facing significant budget reductions in the years to come. As a result of the Florida homeowners' real estate tax crisis in recent years and subsequent legislation to correct it, Miami-Dade County is facing a minimum of \$350 million in budget cuts across the board in 2007-2008, and further cuts may be implemented this January. For MDPD, these reductions translate directly to hiring fewer officers, reduced special enforcement initiatives, and minimal capital improvement projects. Many worthy programs will be placed on the backburner as the Department struggles to deliver current levels of police service with significantly reduced funding.

The Community Oriented Policing and Problem-Solving Initiative is one such project. This project will profoundly impact the department's approach to problem-solving and reporting, at all levels, and can fully institutionalize community oriented policing principles and the use of the SARA model department-wide. The successful implementation of this COP initiative within MDPD will create a proactive approach to law enforcement that is more responsive to the needs of the citizens of Miami-Dade County. Improved citizen/police relationships can lead to collaborative crime-fighting and crime-reducing efforts. This is of significant value to the community and to MDPD. Unfortunately, due to budget constraints, this initiative will not receive funding through MDPD's general fund in the upcoming fiscal years. This grant will give MDPD the opportunity to fully implement this project at a time when local funding is scarce.

Miami-Dade Police Department
Community Oriented Policing and Problem-Solving Initiative

Budget Narrative

A. Sworn Personnel – No sworn personnel are requested

B. Civilian Personnel – No civilian personnel are requested

C. Equipment/Technology

The MDPD Community Oriented Policing and Problem-Solving Initiative will require the purchase of the following technology and equipment:

- (1) One broadcast-quality video camera - In order to webcast a live feed of the training conferences, and to subsequently utilize that video footage in the development of online training modules, the purchase of a broadcast-quality video camera is necessary. While our Video Services Unit does currently own video cameras, none are of the professional grade required to web-cast a quality product. It is the goal of this initiative to broadcast to other agencies outside of MDPD, and poor video quality could be a detriment to the effectiveness of the training.
- (2) One Nomad mobile multi-media presentation cart - These podiums provide in a single unit all the audio-visual and technology components necessary to effectively deliver webcast- quality multi-media presentations with the added benefit of complete mobility. The Training Bureau currently has a severe shortage of classroom space available onsite for non-mandatory training. As a result, many high-liability training programs are held off-site or at remote departmental

entities. These spaces often do not have readily available all the audio-visual technology requested by instructors. Even some existing classrooms located on the Training Bureau complex do not have audio-visual equipment installed. The acquisition of one Nomad mobile A/V cart gives us the freedom to provide the training at any given location with the full use of completely integrated audio-visual technology that will also compliment the web-based broadcast technology described in this proposal.

- (3) Of vital importance, and by far the largest expenditure, is the purchase of the ActiveStrategy Enterprise Balanced Scorecard application enhancement that will enable the integration of CompStat/COP into the department's strategic planning process. This enhancement will allow for the automation of data and measurement loading, the modification of existing departmental Scorecards to include CompStat/COP data and their corresponding SARA reports, if applicable, and the alignment of departmental goals and objectives. This enhancement also includes the instructor-led training, provided by the vendor, to end-users and data entry and management personnel, including program reference materials (referred to as Briefing Books) that allows managers to present data in a familiar manner. Included in this proposal are the following consulting fees:

Project Manager - \$150/hr

Executive Consultant - \$200/hr.

Senior Consultant - \$175/hr.

Senior Tech. - \$150/hr.

We will make a formal request through the US Department of Justice requesting a waiver for the maximum allowed fees for consultation services.

D. Other Costs

The research and development of a new training program will require the preparation of training materials for distribution to training class participants, and also to complement online training modules. These materials will be compiled in the form of training manuals that will be duplicated either at MDPD's Training Bureau or, if this is unfeasible, through Miami-Dade County's General Services Administration. These training materials are essential to the thorough presentation of training material, and are an important resource to aid in the retention of important information.

E. Supplies

The distribution of the introductory DVDs requires the purchase of DVDs, jewel cases, and labels.

F. Travel/Training

Training as mentioned above for the ActiveStrategy Enterprise Balanced Scorecard, will be required.

G. Contracts/Consultants

See Section B (3)

F. Indirect Costs – No indirect costs will be incurred.
